(Reuter's Service to the China Mail.)

LONDON, August 23.  
Copies of the French note have been circulated amongst the members of the Cabinet. An immediate rejoinder is unlikely as it is felt that the very complicated document must be thoroughly examined by experts before it is possible to determine whether it constitutes a modification of France's attitude.

Mr. Baldwin has not changed his plans and departs on a holiday to Aix-les-Bains on August 26. It is pointed out that Belgium's reply has not yet been received and may possibly contain constructive suggestions.

**ENLIGHTENING A FRIEND.**  
PARIS, August 23.  
The remark of the *Echo de Paris* that "the document does not aim at victoriously refuting the enemy but enlightening and convincing a friend whose assistance is precious" is the keynote of the French press comments which chorus their praise of the "clarity, precision, force, courtesy and firmness of the French note. They refuse to believe Britain will fail to listen to the voice of reason or deliberately reject a plan of settlement safeguarding her interests.

It is announced here that the United States have accepted the invitation of the Council of the League of Nations to be represented at the meeting of the Fifth Commission, at which humanitarian questions will be discussed. The American delegates will act in a consultative capacity.

The meeting of the joint advisory committee on Agriculture dealt with the prevention of the spread of anthrax infection. This question will be discussed at the forthcoming meeting of the International Institute of Agriculture, which will call the attention of the different governments to the urgent necessity of steps being taken to cope with the disease.

LONDON, August 23.

**AN APPRECIATION.**  
(Specially Contributed.)

An inveterate attendee at Cinema performances, a believer in the art and the mission of the Cinema, one has always wondered why more stress and publicity is not made by those concerned on what may be called the hors d'oeuvres of Cinema entertainments—those "gazettes" which precede the chief item on the programme or short screen items which do so much to enlighten to amuse, and if the horrid word has to be used in connection with our amusements, to educate. This came forcibly to the mind whilst sitting in the cool-aided "twilightness" of the Coronet Theatre. "Nanook" was not necessarily the magnet which drew us. As a matter of fact pictures which deal with ice and snow do not appeal to us. Probably in another age we may have been an Eskimo or an Eskimo! We went as a matter of course to enjoy the all round excellence of the shows which are a feature of the Coronet—shows which, it seems to us, have a vast amount of thought expended on them which the unthinking do not imagine. Even the magic is thought out. Nowhere in

(Reuter's Service to the China Mail.)

PRETORIA, August 23.  
The Opposition has profited by General Smuts' speech on August 15 and is threatening violent attacks against the Premier.

Mr. Hertzog, the Nationalist leader, issued a statement describing General Smuts' speech as heralding war with France and accusing the Premier of acting unconstitutionally by not calling Parliament regarding participation in the new war to which the position of Europe is moving.

General Smuts, replying hereto, characterises the ascription of the possibility of an Anglo-French war as sheer madness. On the contrary Anglo-French differences are being discussed as between friends. He wonders whether Mr. Hertzog's references to a great split among the South African people relates to another rebellion but is inclined to believe it merely typical of Mr. Hertzog's violence of expression.

the Far East we are inclined to say audiences one switched from the shoulder-shaking ravages of the latest Fox-trot to the beauties of a Grieg conception or to the soulful soundings of say Rachmaninoff's prelude, as audiences are at the Coronet. In that famous London picture shown last week, one wondered where the old times had been dug up. Who had bothered to go to the trouble that a film and a story dealing with London and the country round about should have with it the English melodies of another day. When "Sweetheart May"—a song founded on fact, was trilled out, one sat up and was grateful for so much thought and trouble, for we have been in theatres in different parts of the world where enjoyment has been killed either by bad playing or bad instruments, or by "toones" that had nothing in common with the picture or the people. But let us get back to the Hors d'oeuvres. These "gazettes" bring to the eye and to the mind scenes which even the most brilliant newspaper man can only faintly limn. Mount Etna's eruption in its wordless display shows us the horror of it all. A steamship mounts to us, a giddy panorama of faulty brick with cheery canopies. The London home shabby and its brilliant riders claim attention, a yacht race and a Princess's wedding or her groom. News from everywhere. That is helping one. Helping two is a longer dish of dances done by English juveniles evidently in Shanghai. These budding Parlovas charm the eye and enchant the imagination. Their movements are not laboured. They have about them all the innocence but not immaturity of youth; all the gaiety and abandon which the young only can call. They bewilder us with their enthusiasm and their elish spirits. If only we could move so swiftly on our toes, or interpret the poetry of movement as they do! These are not mere idle words meant as unpolished flattery. We, like Oliver Twist wanted more of this kind of thing, but youthful limbs must rest and artistic conceptions also have their limitations. We set out to bless, appraise, and analyse. We should probably spoil our well meant efforts were we to attempt this well-nigh impossible task, and defeat our object in urging others to pay it a visit. They will come away refreshed in body, mind and spirit—probably with a chastened spirit, undoubtedly with a feeling that the mission of the cinema is being justified and that the Coronet and its progenitors are deserving of all praise—better still of all support.

HONGKONG, FRIDAY, AUG. 24, 1923.

## LIBERALISM.

The conditions of Government at Home and the state of the different political parties affect us here almost in the same degree as if our domicile was in the old Country and our more immediate thoughts centered on those who now govern and on those who one day hope to do so. Prophets, not without honour in their own immediate circle but with Labouring solemnity predict for the future of the next Government, taking no account of the fickleness of the electorate and the many unknown causes which help to wreck and erect the structures of Government. In these matters Political parties come and go but Government goes on for ever. "Revolutions may come but always there are those willing to convert order out of chaos." The Liberal Party is the latest of the political bodies to suffer a partial eclipse. Indeed the phenomenon, if such it is, is not common to England, but operates on the Continent. Envy, hatred and uncharitableness may be deemed the causes which have led to the temporary disruption of the English Liberal forces. It is absurd that this great body of enlightened opinion can long continue in two separate camps with leaders of such intelligence and intensity as Mr. Asquith and Mr. Lloyd George. Ultimately compromise will rescue it and we may see Sir John Simon rallying the dismembered clan to, if not victory, then an opposition worthy the past great history of the Liberal Party. In France the Lower Middle Class Radical Party, supported chiefly by small landholders, priest ridden and tax beset, lost in 1919 the political power it has enjoyed since the Dreyfus Crisis. Its former leader, Joseph Caillaux, is a political exile, and its efforts to formulate a cohesive programme for the next elections are painful and slow. In

Italy the old-time middle class party leaders have lost their position at the head of affairs. Neither Giolitti, Orlando, Salandra, or Nitti, are executives today. In Sweden the Liberal Party has split on the question of Prohibition. In the United States the Democratic Party was badly defeated after the war. What its chances are in the next election it is impossible to say. Divisions in the opposition camp may help to let it in. Liberals the world over, meaning those who truly stand for "neither reaction nor revolution" are for the time being in the shade. One may say of them as a body "Where is dat Barty now?" As at present constituted it will take a long time for the Liberals to come back.

## Rules.

A schoolboy notion was that rules were made to be broken. This occurred to us in reading "Kwa-lon-nite's" letter in our last night's issue complaining of the disregard of the Star Ferry Co.'s rules as to smoking, spitting, and using the seats as rests for tired feet. It is an old complaint and whilst people generally are either indifferent or unthinking, these lapses of selfishness, disobedience, and generally speaking, of bad taste will continue. They will undoubtedly continue while those who cause notices to be prominently displayed as to what passengers are not to do, as prominently exert an effort to see the rules carried out. The "Tramway Co." say that the upper decks of their cars can only carry 20 passengers and that no number beyond this is allowed. This *obiter dicta* is flagrantly disregarded and scarcely ever enforced. It is ridiculous to expect a Chinese Conductor to carry out the Company's rule—if it is meant to be a serious one. Examples in other directions could be instanced. It may be that these rules cannot be enforced by law. If not why have them—or why not get the Government to give them their sanction?—then go ahead and prosecute. As a local commenting friend might say "the hand that touches the pocket rules the action," meaning that people who won't sit up on a Ferry seat without putting' encaused feet on an opposite seat, will be made to sit up through the region of a fine. Or perhaps a lady who has had a garment soiled might institute an action against someone for damages and thus bring

the matter to a head. Failing this the gentle shift of sarcasm might be tried. Bawdiesse the Golf Club's notice and exhibit. "Gentlemen will not smoke (or spit, or put their feet on seats) others will do so at their peril." or "How can a person who expects to be expected to be a gentleman?" It is a more or less interesting comment on the mentality of Hongkong to notice the wording of warnings shown in lifts, on cars, ferries and trams. Those who have a moment or two to spare might do worse than make a note of them.

## Cash And Convenience.

The decision of the Government to enforce the law prohibiting the signing of cheques for drinks in hotels and bars, excepting in cases where the signatory is a resident guest or requires liquid refreshment other than water with a meal, has evoked general comment in local circles. We consider the move a wise one and should like to see it extended to Clubs. In fact, until this is done, public purveyors of retail liquors will be given some grounds for complaint. It may be urged that it is very difficult for Clubs to introduce any such embargo, but that argument will not hold water. In many places in the East, the deposit system for years has been rigidly enforced at Clubs and could just as easily be insisted upon here. Advocates of the club system defend it upon the grounds of convenience. The deposit system meets their difficulty and doubtless would be welcomed by themselves. If the elimination of the club system tends to lessen the amount of alcoholic beverages consumed it will be a gain to the community, except to those who profit by the weakness in others. It is a simple matter to sign a cheque for a round of drinks and the careless seldom considers what difference such a bill is making in the sum total of his debt during the month. If he has to pay cash or sign his deposit book, he realizes how he stands. We have heard it said that the enforcement of the order is already having its effect on takings at the bar; if this is true, it bears out our contention that the club system leads to needless expenditure on liquid refreshments. We fail to see that any argument can be advanced in favour of the club system except one of convenience which, as already pointed out, can be met by the introduction of the deposit system.

## To-day's Poems.

(A Net to Snare the Moonlight.)  
(What the Man of Faith Said.)

The dew, the rain and moonlight  
All prove our Father's mind.  
The dew, the rain and moonlight  
Descend to bless mankind.

Come, let us see that all men  
Have hand to catch the rain,  
Have grass to soave the spheres of dew,  
And fields spread for the grain.

Yet, we would give to each poor man  
Ripe wheat and poppies red,  
A peaceful place at evening  
With the stars just overhead:

A net to snare the moonlight,  
A sod to spread to the sun,  
A place of toll by daylight,  
Of dreams when toll is done.

## LOCAL AND GENERAL.

Bandits have captured a French priest in the Talifu district, according to a *Reuter* cable from Peking.

Golfers will be interested to learn that the Old Course at Fanling will be reopened for play to-morrow the 25 inst.

A memorial service will be held in St. John's Cathedral on Friday, August 31, at 5.30 p.m. in memory of those who lost their lives in the typhoon.

The total output of the Kailan Mining Administration's Mines for the week ending August 11, amounted to 88,720 tons, and the sales to 83,497 tons.

Lady Liangtack left \$57,000; Lord Portman, \$615,000; John Harrison of Gow and Harrison, Glasgow, \$617,000; Major-General Henry Vibert, \$31,000 and Lord Plymouth \$286,000.

The Japanese naval scrapping programme, in accordance with the Treaty, is to be completed forthwith, according to an announcement by the Navy Department states a *Reuter* cable from Tokyo.

Messrs. J. Hurley, F.C. Dowley and P. Barnard arrived by the P. and O. s.s. "Mantua" last evening to join the local police force. All the new recruits formerly served with the Royal Irish Constabulary.

The P. and O. S.S. Co. Ltd. are again to be congratulated on the quick mail service they are providing. The steamer "Mooltan" dispatched from London the evening of July 26 reached Hongkong at 5.30 p.m. on the 23rd inst. a mere matter of 28 days and a very fine performance.

For being in unlawful possession of 999 percussion caps, a Chinese, who was arrested by Sub-Inspector Fallon on the Leung Wing Wah Wharf yesterday, was fined \$50 by Mr. C. D. Melbourne this morning. The caps, which were secreted in tins of talcum powder, were confiscated.

A copy of the eighth annual report of St. Dunstan's reaches the *China Mail*. "The Battalions of the War Blinded" it is called and it is full of what St. Dunstan has done and is doing for those blinded by the War. We know of no work worthy the support of all than St. Dunstan's.

The *Times* says, it is believed that the Japanese submarine which was sunk at Kobe was insured on the London market, while under construction. The vessel was insured to a value exceeding £250,000 by London insurance interests. This sum is likely to be widely spread among Lloyd's underwriters and the insurance companies, says a *Reuter* cable from London.

The journalist, the late Sir William Robertson Nicoll, left \$52,000. By his will proved at \$323,740 Sir Griffith Thomas, coal-owner and exporter and shipping agent, left the residue of his property for the promotion, endowment, encouragement, and support of philanthropic, charitable, educational, national or municipal objects in Swansea and Neath.

Mr. Albert C. Hall, manager for the East of the Ocean Accident and Guarantee Corporation, who has had an extensive and interesting tour through Turkey, Egypt, Palestine, Syria and India on behalf of his company, is returning to Singapore on the P. and O. steamer "Devanha."

The death took place suddenly at his residence, 506, East Coast Road, on May, 19, of Mr. J. L. Scheerder, an old and respected citizen of Singapore. The deceased was an extensive landowner, and counted a large circle of friends.

In spite of the shortness of the notice of his demise there was a large attendance at the funeral, which took place at Biddadi.

Having completed their tour of South Africa, India and the Far East, the Courtledge-Holloway Comedy Co., whose stay in Hongkong will be readily recalled, have left for home. Miss Leslie Graham, the daughter of a former manager of the Birmingham Theatre Royal and who appeared as Poppy Faire in Ambrose Applejohn's Adventure, is to be married to Mr. J. W. Gable, an architect in the Bombay Improvement Trust.

## TYPHOON DANGERS.

## HONGKONG'S LIFE SAVING NEEDS.

## PRACTICAL SUGGESTION.

(To the Editor of the China Mail.)

Sir,—Now that the question of life saving apparatus for Hongkong has become a burning topic following last Saturday's disasters, I should like to bring under the notice of the public the value of the mortar and rocket apparatus. Why not have three stations here, two on the island and the other at Kowloon? The apparatus could easily be transported by motor lorry to the scene of the wreck. The following instructions clearly show what I mean:—

1.—A rocket or shot, with a thin line attached, will be fired across your vessel. Get hold of this line with all speed; and when you have secured it, let one of the crew be separated from the rest, and signal to those on shore as follows:—If in the day-time, wave his hat or his hand, or a flag or handkerchief; or if at night, let a rocket, blue light, or a gun be fired, or let a light be shown over the side of the ship, and be again concealed.

2.—When you see one of the men on shore separated from the rest, wave a red flag; or, if at night, show a red light, and then conceal it. You are to haul upon the socket line until you get a tailed block with an endless fall rope through it.

3.—Make the tail of the block fast to the mast about 15 feet above the deck, or, if your masts are gone, to the highest secure part of the vessel; and when the tail block is made fast, and the rocket line unbent from the whip, let one of the crew, separated from the rest, make the signal required by Article 1 above.

4.—As good as the signal is seen on shore, a hawser will be hauled off to the ship by those on shore.

5.—When the hawser is got on board, the crew should at once make it fast to the same part of the ship as the tailed block is made fast to, only about 18 inches higher, taking care that there are no turns of the whip line round the hawser.

6.—When the hawser has been made fast on board, the signal directed by Article 1 above is to be repeated.

7.—The men on shore will then haul the hawser taut; and, by means of the whip line, will haul off to the ship a sling, cot, or life buoy, into which the person to be hauled ashore is to get and be made fast. When he is in and secure, one of the crew must be separated from the rest, and again signal to the shore as directed in Article 1, above. The people on shore will then haul the person in the sling to the shore; and, when he has landed, will haul back the empty sling to the ship for others.

This operation will be repeated to and fro until all persons are hauled ashore from the wrecked vessel. 8.—It may sometimes happen that the state of the weather and the condition of the ship will not admit of a hawser being set up; in such cases a sling or life-buoy will be hauled off instead; and the persons to be rescued will be hauled through the surf instead of along the hawser.

Masters and crews of stranded vessels should bear in mind that success in landing them, in a great measure, depends upon their coolness and attention to the rules here laid down, and that by attending to them many lives are annually saved by the mortar and rocket apparatus on the coasts of the United Kingdom.

The system of signalling must be strictly adhered to; and all women, children, passengers, and helpless persons should be landed before the crew of the ship.—Board or Trade.

As one that has been drilled in this apparatus and has used it, I think it is high time to prove it here.

Yours, etc.,  
OLIVER TWIST.  
Hongkong, August 23.

## "SHOT THE MOON."

## LOCAL LANDLADY LEFT IN THE LURCH.

Some days ago a "Triumph" motor-cycle was found abandoned at the foot of Battery Path and taken to the Central Police Station. It now transpires that the cycle is the property of a local European, who had lent it on trial to a prospective purchaser who has since "shot the moon." The would-be purchaser, it appears, had more brains than money. By a rise he got his luggage out of the boarding house where he was stopping, telling the boy that he was sending it on ahead, and would wait to settle his bill until his larder was awake from her post-prandial nap. He then mounted the motor-cycle and rode away abandoning it as stated, and left the Colony by ship.

## CORRESPONDENCE.

## CANTON PRESS GANG CHARGES.

(To the Editor of the "China Mail.")

Sir,—The article on the situation in Canton which appeared in your issue of Tuesday last under the heading "Press Gangs" was of particular interest to me because on that same afternoon—Tuesday, August 21st, I saw in Canton, evidences of barbarism which no amount of "eyewash" from Mr. Chen Chantok—the Secretary for Foreign Affairs—who was interviewed by your representative—can condone. At about 2.30 p.m. I passed down the Bund and saw three corpses along the route. I am assured by other European eye-witnesses that, earlier in the day there was at least one other corpse. These were corpses of men who had been compelled by military press gangs to carry baggage. It is well-known in Chinese circles here that the food given to these carrying coolies is little, if any better than a starvation ration, and, indeed no further proof of this was needed than the condition of the men themselves.

On the morning of Tuesday last, Yunnanese soldiers passed along the Bund to Tai Sha Tau station en route for the East River, taking with them compelled carrying coolies. Such was the condition of some of these coolies that they fell to the ground under their burdens and were then beaten with bamboo until they staggered to their feet and continued for a further few score yards when the terrible process was repeated. The corpses along the Bund were those of men who had been thus brutally beaten to death. This I have on the authority of a European who witnessed the proceedings, and ample evidence of beating was to be found in the bloody backs of the corpses.

According to Mr. Chen, as reported by you, whenever such complaints are brought to the notice of Dr. Sun Yat-sen, he orders an enquiry and, if the charges are proved, those responsible are severely dealt with. It is to be hoped that this particular incident will be brought to Dr. Sun's notice, but one imagines that in this, as in the case of the closing of gambling houses—again quoting Mr. Chen—Dr. Sun is too busily employed with matters of greater importance to take steps to suppress it.

To say, as the foreigner interviewed by your representative is reported to have said that "no one is taken to act as a carrying coolie if he can prove that he is in employment" simply shows ignorance of the facts. There are instances of men who were actually taken from work.

The ruthlessness with which the press gangs carry out their task may be judged from a case which was reported in the vernacular press about a week ago when a coolie, to avoid arrest, jumped into the river and was shot through the back while in the water. Without considering another branch of the press gangs' activities—that of arresting middle-class Chinese and extorting money on the threat of compelling them to act as carrying coolies—it is obvious to those who know Canton that the coolie population is very really afraid. This can be ascertained by questioning any Cantonese and is proved by the dearth of coolies both for carrying purposes and for house building.

It is not my aim to trace the effects of such happenings on Canton public opinion, nor to point to the obvious defects in the present political puppet show under whose régime such things are possible, but to bring to the notice of your readers that here, in Canton, ruthless barbarism is being practised by soldiers who are in the employ of, and ostensibly under the control of, so-called apostles of democracy and would-be leaders of New China.

I am, Sir

Yours etc.,  
PROVINCIAL.

## INCOME TAX REFUNDS.

(To the Editor of the "China Mail.")

Sir,—Now that the Finance Bill of 1923-24 has passed into law, no doubt your readers who derive any income from the United Kingdom will be interested to learn its provisions.

Briefly the most important changes affecting non-residents are these:

- (1) The standard rate of tax has been reduced to 4/6 in the pound.
- (2) Claims can be made for three years back, but this limit will gradually be extended to six years. It will not be possible, however, to claim for years prior to 1920-21, the section not being retrospective.
- (3) Income derived from the Irish Free State will be exempt from

## EMPIRE EXHIBITION.

## SINO-BRITISH MEETING HELD YESTERDAY.

## CONTROL OF FUNDS.

A meeting of the Exhibition Committee of the Chinese General Chamber of Commerce was held yesterday under the presidency of Mr. Li Po-kuai. Amongst others present were: Sir Robert Ho Tung, the Hon. Mr. R. H. Kotewall, Mr. T. N. Chau, and Mr. Ho Kwong. Towards the close of the meeting the Hon. Mr. E. R. Hallifax (Secretary for Chinese Affairs), the Hon. Mr. P. Holyoak, Mr. D. K. Blair (Secretary to the General Chamber of Commerce) and Mr. J. Fleming, of Messrs. Lowe, Bingham and Matthews (who have been recommended by the Joint Committee to H.E. the Governor to act as accountants to the Hongkong section of the Exhibition) attended a several points which had arisen were explained by them.

At the outset of the meeting Mr. T. N. Chau said he thought that 26 buildings would be necessary to cope with the demands for space. As the demand for space was greater than the space at the Committee's disposal he thought the applications for space would have to be reduced.

The Hon. Mr. Kotewall, in giving a brief resume of the proceedings of a meeting of the Joint Committee of the two Chambers held last Friday, said that the London Committee were very desirous that the scheme for having a Chinese restaurant in the Hongkong section should be carried out. The abandonment of the scheme, the London Committee had argued, would cause much delay in the construction of the premises as the necessary plans for the buildings had been perfected and any alterations to these plans would cause considerable trouble.

As to the Chinese application for reduction freight on all exhibits sent to England, including those intended to be sold at the Exhibition, Mr. Kotewall said that the Joint Committee had sent another letter to London on the matter. He also explained that Messrs. Lowe, Bingham and Matthews had been recommended as auditors to the Hongkong section with powers to control the financial assistance provided by the Government. This had been in accordance with the wishes of H.E. the Governor. Messrs. Lowe, Bingham and Matthews had prepared forms for distribution amongst intending exhibitors.

## TO SUPPLEMENT FUND.

In view of the possibility of the \$150,000 allotted by the Hongkong Government for the assistance of Chinese exhibitors being insufficient, Mr. Kotewall said that it had been suggested that 5 per cent. should be deducted from sales made by exhibitors for the purpose of supplementing the fund.

The question of Chinese exhibitors giving a guarantee for the return of their representatives and staff to the Colony after the Exhibition was raised and several gentlemen criticised the responsibility which would be placed on the shoulders of the exhibitors. Mr. Kotewall explained that this matter would in all probability be cleared up on the arrival of the Hon. Mr. Hallifax and the representatives of the General Chamber of Commerce. On the arrival of these gentlemen this matter was gone into in an informal manner and Mr. Kotewall informed the meeting that such a guarantee would not be expected from exhibitors. He explained that the object of the proposal was to get over the difficulty of having Chinese stranded without means in England.

The question of the Chinese restaurant was again mentioned and a leading Chinese supporter of the scheme expressed the opinion that a large number of waiters and a kitchen staff would be a necessary feature. It was pointed out, however, that the arrangements to be made were subject to the fund allotted by the Government proving sufficient and further discussion of the matter was adjourned pending investigation.

This concluded the business before the meeting.

British Tax, but liable to Irish Income Tax, which is 5/- in the pound for 1923-24.

There are apparently still many people deriving income from the United Kingdom who are unaware that they can recover at least part of the income tax charged on it. This is in many cases, due to the fact that dividends are often marked "free of tax" and in some instances even no mention whatever of tax is made where they are paid through a local branch of a British Company. In both these cases, however, tax is recoverable.

Should any of your readers desire further information on this question, I shall be pleased to advise them, if they will address me at 13, Buckingham Palace Gardens, London.

Yours, etc.,  
WILFRED T. FRY.  
London, July 16.

**RENTS DISPUTE.**

**SUB-LETTING PROFITS.**

**PUISSE JUDGE'S DECISION.**

In the Summary Court this morning Mr. Justice Gompertz delivered judgment in connection with the rehearing of the case in which Yuen Yung Yu, the tenant of the first floor of 13A, Peel Street, sued his sub-tenant for the sum of \$77 rent in respect of apportionment of the floor.

When the case originally came up for hearing the plaintiff was represented by Mr. M. M. Watson, and the defendant by Mr. M. K. Lau. It transpired that the plaintiff was tenant of the whole premises at a monthly rental of \$37 a month, and was charging the defendant \$77 a month for a portion of the premises. Accordingly Mr. Lau asked that the Puisse Judge assess the standard rent of the portion of the floor occupied by the defendant.

At the time His Honour reserved judgment, but subsequently decided in favour of the plaintiff. "On the whole," said His Honour, "I think the plaintiff is right and the standard rent of this portion is the rent at which it was first let, that is, \$77."

For the rehearing the defence brought counsel, Mr. F. C. Jenkin appearing on their behalf. The point at issue was simply what is the standard rent.

After hearing both Mr. Jenkin and Mr. Watson at considerable length, Mr. Gompertz reserved his decision.

Announcing his decision this morning His Honour said: "On the first hearing of this case, I gave judgment for the plaintiff. It has been pointed out that my decision is of importance both to tenants and to landlords, and that it is desirable that the point of law should be argued by Counsel. I have therefore reopened the case for re-argument. The counsel here must be at what date is the actual rent of this tenement to be taken for the purpose of determining the standard rent. There was an earlier letting of the whole floor at \$87 per month, and a later letting, that is to say in the third or fourth year of the lease, the tenement with which I am now concerned at \$77 per month. I have already said that as there is now power of apportionment under the Hongkong law, the later date, that of the separate letting must be the appropriate date."

It is now not to me that the English cases:

Mitchell v. Campbell, 1923, 1 K.B. 215.

Woodhead v. Putnam, 1923, 1 K.B. 252.

R. v. Markham C. Court Judge, 1923, 1 K.B. 365.

show that the crucial test is whether there has been substantial structural alteration. If there has been no such alteration then the date is that of the first letting of the whole tenement. But none of these cases in fact depart from the principle of the reasoning in Woodhead v. Putnam, 1923, 1 K.B. 252.

Where you have two dates to select from, and the legislature has provided for apportionment, it is manifest that its intention that the appropriate date is that which fixes the standard rent of the whole. Then if there has been no substantial structural alteration, apportionment comes in to ascertain the rent of the part. But where there is no provision for apportionment there is then only one date which can be taken—the date that is to say of the separate letting of the part. The date at which it becomes a domestic tenement, otherwise there is no means of fixing a standard rent of the part. This—as was pointed out by Salter J. in Woodhead v. Putnam, 1923, 1 K.B. at p. 256—can only be done by apportionment. But Mr. Jenkin carries his argument further. If the standard rent of the whole is—say x—then the standard rent of the part cannot be more than x—and the plaintiff here cannot at any rate recover more than x—that is to say \$87.

The answer to this is that the law has made no such provision. As Wood J. observed in another connection in Leung Lin-sen v. Hin Sing-fat 16, 11 K.L.R. at p. 55: "The Ordinance has provided no machinery by which the Court can deal with portions only of a domestic tenement."

In my opinion therefore the standard rent of the part is the rent at which it was first separately let, that is, \$77.00, and the plaintiff keeps his judgment. Cost on highest scale for Counsel."

**TIME.**

"Let Time thy servant be,"  
The Oriental says:  
But what about poor you and me,  
With Occidental ways?

We rob ourselves to save,  
The minutes that go faster:  
As down the years we slide  
For Time, our tireless master!

**"LOONGSANG" DISCOVERY.**

**BODY ON WRECK.**

**POSSIBLY SECOND OFFICER.**

The discovery was made yesterday afternoon that there was a corpse on the submerged poop of the ill-fated "Loongsang". appeared to be caught by the life belt strapped around it and the motion of the water made the arms wave in almost lifelike fashion.

It was difficult to tell whether the body was that of a European or a Chinese but it is thought possible it may be the body of Mr. D. R. Wilson, the "Loongsang's" Second Officer, who was last seen on the top of the poop, which was then awash. It is also stated that a sampan woman thinks it to be the body of her dead husband and has been hovering about near the wreck in her boat.

It will be low tide at about 2.40 this afternoon when as the poop will then be only a few feet under water, an attempt will be made to extricate the body and bring it to the surface.

**LATER.**

The water police searched this afternoon but their efforts, up to 3.15 p.m., appeared to be unsuccessful.

**TUGS AND LIGHTERS.**

**NEW \$2,000,000 COMPANY.**

**PROSPECT'S NEXT WEEK.**

A new company known as the Hongkong Tug and Lighter Company Limited has been formed and its prospectus, a *China Mail* reporter learned this morning, will probably be issued next week.

The company is to have a capital of \$2,000,000 in 200,000 shares of \$10. Only half will be issued and about 80 per cent. of the shares have already been taken up by the founders. That leaves 20,000 shares to be offered to the public next week at a meantime contribution of \$1.25.

Messrs Shewan Tomes and Coy. Ltd. are to act as general managers and the consulting committee will be as follows:—Mr. W. Adamson (Chairman), Mr. W. I. Carroll, Mr. M. Nemaze, Mr. Ip Tse-fong, Mr. C. B. Brook.

Interviewed this morning, Mr. Adamson said the new company's object would be to provide a fleet of up-to-date lighters for the carrying of cargo and a sufficiency of tugs to tow them. When not employed in towing lighters the tugs would, of course, be available for other work.

Mr. Adamson estimated that the company would be able to begin operations in about three months' time.

**ARMED ROBBERS.**

Robbers armed with revolvers and daggers entered a dwelling house in Argyle Street, Yau-mat, this morning, and after intimidating the occupants got away with \$150 worth of booty.

**TYPHOON POSSIBLE.**

A telegram from the Manila Observatory was received at the American Consulate-General at 10.15 this morning, which reads: "Warning low pressure area extending from the China Sea to the Pacific across Northern Luzon and the Balingas Channel. A real typhoon may develop later."

### TYPHOON SLACKNESS.

#### HARBOUR BUOY DRAGGED.

#### MARINE COURT CASE FOLLOWS.

Remains at her buoy at West Point until the height of Saturday's typhoon, although she had been warned to move out to an anchorage for the night as soon as the black typhoon signal was hoisted, the s.s. "Halls" was stranded off Kennedy Town. In the process the buoy at which she lay, C45, was dragged 150 feet to the south-west.

These facts were mentioned to the Marine Magistrate (Commander Beckwith) when the agents of the ship were charged by the first Bounding Officer (Mr. C. J. Thomson) with having neglected to move the steamer out during daylight to an anchorage for the night when the typhoon signal was hoisted on August 17.

The defendants pleaded guilty and Commander Beckwith directed that the moorings of the buoy should be fitted and relaid at the expense of the ship's owners.

A similar offence was alleged against the master of the "Sunka Maru" (Captain L. Furukawa) in connection with Tuesday night's blow.

The defendant explained that he could not get steam up because his boiler tubes were leaking but that he went out as soon as repairs were effected.

The Magistrate decided to let him off with a warning.

### Y.M.C.A.

#### EUROPEAN AND CHINESE ACTIVITIES.

#### THE KOWLOON SITE.

The Board of Directors of the European Y.M.C.A. has now received from the Government official notice of the "deeding" to them of the magnificent site in Kowloon for the new European Y.M.C.A. The Government had already given verbal permission some time ago and also a building permit, but the matter is now put in definite form. Such a magnificent gift as this building site of 31,000 sq. ft. of valuable land, computed to be worth half a million dollars has naturally given immense satisfaction. The Board is able to look to the future with much confidence in their efforts in behalf of the young manhood of the European Community.

The Chinese Board of Directors have appointed Mr. Tsui Mo-fat to be an acting general secretary in the place of the late Mr. Ho Shiu-lam. Mr. Mo-fat has been a Secretary under Y. M. C. A. auspices for seven years, six years as Educational Director and a year as executive Secretary of the Senior division and is therefore well qualified to assume his new duties. Mr. Mo-fat is a graduate of the Canton Christian College.

### "SOME DISTANCES"...

#### INTERESTING COMPILATION.

Captain G. H. Pennefather has written and compiled, and Ye Olde Printers have printed and published a neat and handy book, easy to slip in the pocket, entitled "Some Distances in the South China Sea and Philippine Islands." The book not only gives distances to almost every known place, in the regions mentioned, but gives degrees latitudes, and longitudes and the course to take. There are observations regarding rocks and the straight tip to mariners with "In the typhoon season with the wind N. E. and glass 29-30 never pass a typhoon anchorage."

There are various other comments in the book which are sensible in that they point to safety and are meant as aids to navigators, which make the book more valuable. Primarily of interest to mariners, the mere landlubber can spend some profitable moments in perusing Captain Pennefather's book, brushing up his nautical knowledge and comparing distances he may have travelled.

### FILIPINO FIGHTERS.

#### MEN WITH FINE RECORDS HERE.

[By Argus.]

We had a visit this afternoon from Mr. Frank Chua-poco, a native of Amoy, who is passing through here with two Filipino pugilists en route to Shanghai where he hopes to arrange matches for his protégés. Leonardo Garcia, 22 years of age, is a junior feather-weight and goes to scale at 120lbs. His manager describes him as a second Pancho Villa. He already can claim to be champion of the Orient at the weight. The other lad, Faustino de Dios, is 18 years of age, weighs 118 lbs. and is anxious for a match with any bantam. Mr. Frank Chua-poco was disappointed when told about the colour ban, but trusts on his return from Shanghai, that local men will be found to meet his protégés.

#### GARCIA'S RECORD.

Since October 1921 to July this year, Garcia has had 48 fights, out of which he has won 41, drawn 6 and only been defeated once by Billy Tingle (champion fly and bantam weight of Sydney), whom on a previous occasion he had defeated.

#### FAUSTINO DE DIOS.

Faustino de Dios since September 1920 until July 1923, has entered the ring on 38 occasions and only suffered four defeats. He has fought eight drawn battles and has 26 victories to his credit.

Mr. Chua-poco has been a resident in the Philippines for 14 years, and during the past year has been assistant manager and match-maker at the Makahayan Stadium, San Pablo Laguna. Mr. Chua-poco is anxious to match his charges against all comers at either bantam or feather weights.

Local pugilists, anxious for a match, should get in touch with "Argus" of the China Mail.

### BOY'S TRAIN MANIA.

#### OVER ENGLAND WITHOUT TICKET.

A remarkable tale of a boy's mania for train travel was told by a police superintendent at Selby (Yorkshire) when Joe Sylvester, 14, was charged with travelling without a ticket from London to Selby.

According to the boy, whose home is at Plymouth, his mania for railway travel brought him to the industrial school at Exminster, Devon, at the age of ten. Thence he escaped, and he had since journeyed practically all over England without any ticket—from Plymouth to London, London to Weything, then to the Midlands, and finally taking a train at King's Cross for York, where, he said, he now lives.

Relating how he dodged the ticket-collectors, he said that when a train stopped at a station where tickets were collected he leant from the carriage window till the collector approached. Then he got out, and when the collector had passed he managed to slip in again.

Sylvester confided to the superintendent that he could not resist stealing a ride on the railway whenever an opportunity came to him; he really could not resist it. The superintendent said the Plymouth police informed him that Sylvester had absconded from Exminster Industrial School, and the adventurer was remanded to the workhouse to await an escort from the school.

According to the Chung Mei News Agency, a Sino-American concern in Peking, General Wu Pei-fu has found a gold mine and has lost no time in getting it developed. The mine is about ten miles from Loyang, the reports say, and a company has been organized to exploit it. The General, according to reports, is a member of the company. Development in this case will be under the direction of foreign engineers.

### SPORT.

#### MILITARY FOOTBALL.

#### 2ND BN. THE KING'S REGT.

The concluding matches of this competition have been played since the report published last Friday and, with the exception of the "Runners Up" medals, the league positions are decided for another year.

No. 2 Group are Champions with a total of 33 points. The three teams who tied for "Runners Up" position obtained 26 points each. A triangular contest to decide between these three teams is now in progress and the last match of the contest is to be played to-night at 5.30 p.m.

The "Wooden Spoon" goes to No. 16 platoon as No. 8 platoon, after occupying bottom position until last week, finished in the 16th place.

No. 14 platoon, who were Champions in 1922, finished up in the 8th position with 21 points and No. 13 platoon, who were "Runners Up," complete their fixtures with the same number of points as No. 14 platoon.

Throughout the Competition the matches have been interesting and well fought and in no instance has a match had to be put off through the failure of a team to turn out.

The final League Table is given below:—

#### LEAGUE.

TEAMS.	P.	W.	D.	L.	F.	A.	GOALS.	POINTS.
No. 2 G.	19	15	3	1	42	11	33

No. 16 P.	19	2	6	11	31	31	10	

Results of matches played since last Thursday:—

No. 15 P.	4	No. 7 P.	0
No. 2 P.	1	No. 16 P.	0
No. 6 P.	2	No. 16 P.	1
No. 8 P.	1	No. 2 P.	0
No. 13 P.	2	No. 4 P.	0

Total points obtained towards the Battalion Football Cup:—  
Headquarter Wing. 100 points.  
"C" Company. 87 points.  
"B" Company. 66 points.  
"D" Company. 66 points.  
"A" Company. 61 points.

The results of the triangular contest arranged to decide "Runners Up" are as under:—

No. 4 G.	3	No. 5 P.	2
No. 1 G.	1	No. 4 G.	0

The remaining match between No. 5 platoon and No. 1 Group will be played to-night and is expected to produce a very keen struggle. A draw would make No. 1 Group the winners of the medals, the contest being decided on points, while a win for No. 5 platoon would place all three teams on equal terms again.

#### CRICKET.

The annual Battalion Cricket League which is a Company Competition commences to-morrow with a match between Group "A" and "A" Company.

For this League Headquarters Wing ranks as two Companies under the designation of Group "A" and Group "B."

The matches are of one innings and commence on Murray Parade Ground each evening at 3.30 p.m.

#### HOCKEY.

A half Company Hockey Tournament is to commence about September 13.

The matches in this Tournament will be played on the Garrison Hockey Ground at Sookumpoo.

### A FATAL FIGHT.

#### EARTH COOLIE KILLED AT TYTAMTUK.

During the typhoon, the coolie matsheds at Tytamtuk few earth-works were so badly damaged that all except 50 coolies decamped. A fight started among the remainder, on the night of August 23, during which one of Kin Lee's gang, a man named Tang Sang, was hit over the spleen by some heavy instrument. He managed to reach his cot, but died 20 minutes later. The matter was not reported to the police until some hours later and when they arrived on the scene the camp had been vacated. The news of the murder was sent over the telephone to the central Station early this morning. So far no arrests have been made.

### TREATS IN STORE.

#### THIS SEASON'S THEATRE ATTRACTIONS.

#### "POLLY" FOR HONGKONG.

In addition to the good things promised by our own A.D.C. in the near future, including a gorgeous pantomime, Hongkong is in for some fine Theatre programmes which should have an attraction for everyone. Early in November we may expect a return visit from old friends in the shape of the Italian Opera Co. Whether they will go to Kowloon or the Theatre Royal is not certain. In December the Philharmonic Society promise a programme of a distinctly engaging character. Lovers of part and Chorus singing will do themselves an injustice or unkindness if they fail to attend a performance which will include items by such famous moderns as Gustave Holst whose "The Perfect Fool" and "Savitri" recently performed in London have raised distinct hopes for the art of the Opera. The Phil's programme will also include an example of the work of a local composer. Altogether an event of some importance will be the Philharmonic Society's Concert. The Pantomime will probably be given near to the Christmas holidays. In January we are promised a visit from the famous Quaints under the more than quaint leadership of the famous R. Salisbury. Salisbury is sure to have the latest songs, skits and things which vie with the London Co-optimists, including several chorus songs. Following on the Quaints will come the Beggars Opera Co. with probably "The Beggars' Polly" which has had London by the ears in more seasons than one and has played to crowded houses for months.

This is a star enterprise and those concerned are to be heartily congratulated, whilst Hongkong should, may well, rise to the occasion in no uncertain manner. This is not all. There will be the more than famous "9 o'clock Revue" with its chorus, its funny situations and all the things that go to make up a successful Revue. For the convenience of our readers we give below the items mentioned above. As soon as we are informed of the dates on which performances are to be given we shall make a point of publishing the information.

December	Philharmonic Society's Concert.
December	Pantomime.
January	The Quaints.
February	"Polly" or "The Beggars' Opera."
February	"9 o'clock Revue."

### FOR THE KIDDIES.

#### "BUFFALO BILL" AT THE STAR.

There are precious few of us who during our boyhood days did not read these stirring tales of that Wild West hero, Buffalo Bill. The younger generation are more fortunate than we older folk; they can learn of the famous rough-rider in an even more interesting way, by seeing him on the movies. The Star Theatre has secured a Buffalo Bill serial. It is in eighteen parts, and the management intend to show three parts every Saturday afternoon, commencing at half-past two this coming Saturday, so screening the complete story in six weeks. Unlike the usual run of serials, there is none of the blood and thunder stuff in this production. There are some real thrills, but the picture provides more than an afternoon's entertainment; its historical nature makes it a film of great educational value. Such episodes as the American Civil war are depicted, and the story brings in all the well-known characters in early American history. General Grant, Abraham Lincoln, Gen. Robert E. Lee, Sitting Bull, the Sioux Indian Chief, and many others whose names are famous come into this interesting film. It is a production every child should see, and most adults would probably find it of more than a little interest.

### AQUATIC SPORTS.

#### L.R.C. ANNUAL CONTESTS AT V.R.C. POOL.

The Lusitano Recreation Club proposes to hold its 3rd Annual Aquatic Sports this year on the 31st of August and 1st of September at the Victoria Recreation Club Bath, by kind permission of the V.R.C. Committee. There will be 20 events. Lists will be found posted at the Club Lusitano, Club de Recreio and the Catholic Union Club.

Entries close at 5 p.m. on Monday next to the Honorary Secretary, L.R.C.

### HAS HIS SUN SET?

#### WHERE IS DR. SUN?

#### FRICTION AND FINANCE.

The report that Dr. Sun Yat-sen has fled from Canton is generally discredited in well-informed quarters here. A China Mail representative, this morning, in conversation with one who is in close touch with Canton officialdom, was told that the rumour probably arose from the fact that certain officials from Canton had arrived in the Colony in connection with obtaining financial help for Dr. Sun. "It is well-known," said our informant, "that the continual demands made by Dr. Sun's military leaders have to be met and the present financial resources of the Canton régime are being taxed to the utmost. Dr. Sun is experiencing similar difficulties to those in the past—despite all the protestations of patriotism among military leaders and the rank and file, money is the main factor. If Dr. Sun had unlimited supplies of cash he could restore order in a few weeks and, provided revenue was not misappropriated by the collectors, peace would be permanent."

#### FRICTION ADMITTED.

Asked whether he could advance any theory for the present unrest in Canton, our informant stated that undoubtedly there had been considerable friction between the police and the military. The former take their orders direct from Dr. Sun, so to speak, while the rank and file of the armies only comply with orders given by Dr. Sun if it suits the look of their immediate commander. Our informant qualified this statement somewhat by the admission that there were many genuine patriots among the soldiers, but, unfortunately, they were in the minority. In conclusions our informant allowed that it was possible that Dr. Sun Yat-sen had left Canton on a trip to Shanghai to consult his supporters. If he had done so, however, it was most probable that the news would have reached consular circles and would have been officially circulated.

FROM OTHER SOURCES.  
In reply to enquiries made at Police Headquarters here this morning, the China Mail learned that no intention even of Dr. Sun's intention to leave Canton had been given to the police. It was stated that H. B. M. Consul-General at Canton would most certainly have notified the Colonial Secretary if Dr. Sun Yat-sen had any intention to land here and it was almost certain that the Secretariat would have been informed had Dr. Sun actually left Canton for any destination whatsoever.

### TAXIS HERE.

#### SOON TO TAKE TO THE ROAD FOR HIRE.

A number of Taxis having arrived, Hongkong may soon expect to see them on the road. License numbers have been allotted and "rehearsals" are taking place in the region of Happy Valley. The taxis are pleasing to the eye, look very "natty" and comfortable and have an air of safety about them. They have a regular "munch in little" look and wisely and discretely bundled should undoubtedly become very popular in addition to meeting a long felt want giving in wet weather protection from the rain which rickshaws and trams are unable to give.

### WHAT IS IT?

#### MYSTERY OF 1,500-YEAR-OLD FLINT.

Researches carried out in the Central American Republic of Guatemala by Mr. T. W. F. Gann, Reader in Central American Archaeology at Liverpool University, have resulted in the discovery of a number of mysterious flint instruments. Excavations were made amid the ruins of a small temple situated at the summit of a mound near Quirigua. This temple was one of those built by the ancient Maya people of Central America, who, according to the latest theory, derived their civilisation from Egypt and passed across the Pacific some 2,000 or more years ago. Twenty-six beautifully chipped, eccentrically shaped flint instruments were discovered. Of the finest of these an illustration is printed here. It is a long, chipped with exquisite delicacy and precision from dark brown flint. What it is for no one yet knows. No other objects were found, but the date of the flints was closely fixed

### MR. BALDWIN'S PIPE.

#### PREFERS IT TO CIGAR AFTER DINNER.

The Prime Minister, who was the chief guest at the annual dinner of the Rhodes Scholarship Trust, Oxford, set a new fashion that occasioned much surprise. Mr. Baldwin declined a cigar and produced a cherrywood pipe, smoked it with obvious enjoyment. The idea certainly made him popular with the 300 Rhodes scholars who are in residence at Oxford.

by a steel or upright stone slab, erected near the mound. This bore in Maya hieroglyphics the date of "K'atun 14, 9th cycle," corresponding to 452 A.D. of our era. Similar Maya flints have been previously discovered throughout the area of Maya civilisation, which extended from Mexico to Honduras. Possibly they were used in the temples for ceremonial purposes only. Some of them, including the one depicted, had what appears to be a rough handle for holding.

## THE CONNOISSEUR.

## A WORD ABOUT WINE.

What is a Connoisseur? Listen. He is one who knows and loves that which is good, beautiful, uncommon, interesting; everything that is the best of its kind and, above all, genuine.

To become a Connoisseur one must be keen and one must be trained.

Many can see who do not appreciate beauty any more than a cow looking at the most glorious sunset.

Many can hear who do not appreciate harmony any more than a dog in an organ loft.

Many can taste what they drink who are interested as much in the quantity of the supply and as little in its quality as the animals at the Zoo.

Pictures, music and wine may be good, bad or indifferent; it is all the same to those who cannot see, hear nor taste; and it is very nearly the same to those who do not see, hear, nor taste with the keen, apprehensive, mind of the Connoisseur.

The Connoisseur must possess a lively sense of appreciation and be guided by good taste. Good taste is nobody's monopoly, and different people may have good taste who have not the same tastes.

The Connoisseur must neither give up his individuality nor fall into eccentricities; he must cultivate the sense of "measure," of true proportion, which is the hallmark of good taste.

The Connoisseur must be prepared to make mistakes; they are inevitable; they should be helpful and they must not make him lose confidence in his judgment.

The Connoisseur must be critical and not take for granted that the expert is always right; but he must not be self-opinionated and refuse advice.

The Connoisseur must not be extravagant nor hasty; but he must still less not be mean or casual.

The Connoisseur must school himself to resist temptation; he must learn to do without that which he cannot afford and to have alone fakes, doubtful bargains and "just-as-good" substitutes which cost less and are worthless.

## WINE.

That is a breathless description of a Connoisseur in general. Here is one of a Wine one in particular.

The Wine Connoisseur is one who knows good wine from bad and who appreciates the distinctive merits of different wines.

The Wine Connoisseur drinks wine in moderation, but regularly and appreciatively. It is excessive not habit—which blunts appreciation. A little wine every day costs very little money and is the safest as well as the pleasantest tonic for body and mind alike. But wine, whatever its name, its age or its cost, must be honest if it is to be good and to do good.

How can you tell good wine from bad; how can you become a Wine Connoisseur? By using your senses and your common sense. By looking at it, smelling it, and tasting it with critical eyes, nose and palate before committing it to your veins and your brain.

Look at your wine critically; it must be not only clear but brilliant; it is ruby or amber, young or old, cheap or dear. If it be dull or thick, reject it. If bright, let it go before the tribunal of your nose.

Smell your wine critically; it must be clean-smelling. If you can detect the slightest mouldy, foul smell, or some unnatural, artificial scent, however faint, leave it alone. If its discreet aroma is pleasant, remain a while with bowed head over your glass; try and remember the occasion when you last met the same charming "bouquet" and what was the name of the wine. Then you may send your wine to the next court where your palate awaits it.

Taste your wine critically; it must be clean and pleasant. If you detect any unsavoury, sour or merely suspicious taste, spit it out as you would a bad oyster or a piece of tainted meat. But if the wreath of tiny taste-buds of your tongue and palate receive your wine joyfully, pause but one instant, again to search your memory for the name and vintage of the wine you are drinking, and then swallow it gratefully.

WORDS.

Last the foregoing be considered the out-pourings of our original soul, we hasten to say that all that therein has been snipped from an engaging little book called "The Wine Connoisseur" which has been sent to us by Messrs. Caldwell, Macgregor & Co., who will gladly issue free copies on application. Get one and in getting get much wisdom and learning.

## THE EAST RIVER.

## SHORTAGE OF FOOD AT WAICHOW FEARED.

PEKING, Aug. 23. Messages from Canton indicate that the situation in the East River districts remains unchanged.

Sun Yat-sen's forces so far have not been able to capture Waichow. It is reported, however, that Cheng Ching-ming and General Lin Fu are no longer on good terms, the latter refusing to send reinforcements from Swatow.

Owing to the lack of help from General Lin Fu, a shortage of provisions at Waichow is expected, and the city may shortly be compelled to capitulate.

The gunboats "Haichang" and "Daiyui" are reported to have steamed out of Foochow on Monday to attack Amoy. The transport "Chenian" with marines on board is expected to follow.

A bitter debate is being waged in Washington (D. C.) art circles over the charge of Ulric S. J. Dunbar, a sculptor, that George Zolnay, another sculptor of note, appropriated his ideas. Sixteen years ago Dunbar modelled his statue to "Mammy," depicting a negro nurse holding her white ward, while others played about her skirts. A few months ago Zolnay produced his model of "Lest We Forget," showing an old negro nurse caring for a white infant, while her own coloured child stood at her side, crying for attention.

FRENCH REPLY.

LONDON, August 23.  
The morning papers generally agree in paying a tribute to the friendly tone of the French Note, but the phrase "Poincaré gives nothing" sums up the bulk of the comment.

The Times says frank declarations are a definite advantage, as clearing the air, but it must be admitted the differences between the British and French points of view are still very great. Nevertheless it is earnestly hoped that plain speaking will point the way to a settlement.

The Daily Telegraph declares that the Note leaves things precisely as they were, and indicates no approximation to common ground on which Britain and France can hope to renew deeply desired united action.

The Daily News is of opinion that the reply does not carry the world any nearer a solution, nor does it point the way to rescue Central Europe from ruin. If Poincaré forgets nothing he admits nothing and proposes nothing, he has not proposed less unambiguously already.

The Daily Chronicle concludes that the Note has ended hopes of common action as it does not contain a basis for discussions. It hopes Great Britain will not be drawn into endless controversy. The worst result would be if we neither settle quickly nor part.

The Daily Mail alone takes a favourable view. It declares that the Note gives Great Britain a great opportunity to reach a close understanding whereby the mischief of the past three years can be undone and the Entente restored.

The Daily Express profoundly regrets that the French have not the British proposals in a spirit of inflexible obduracy. M. Poincaré asks for everything and gives nothing. The British Government must now turn back on Europe and leave Europeans to strew in their own path. Great Britain's future resides in the dominions and colonies.

The Westminster Gazette thinks the reply brings Britain and France no nearer a settlement and serves only to demonstrate how impossible it is to reconcile Anglo-French policy. The Note imposes on Britain the duty of facing the necessity of separate action. Further discussion on rigid lines can only weaken the British case and delay a settlement possibly ultimately attainable by other methods.

The Morning Post says it is clear that a common formula has not been reached, but it is to a heart-to-heart talk between Mr. Baldwin and M. Poincaré rather than an exchange of Notes that we must look for a sideswipe attempt at settlement. The crisis of the situation is that the first step towards a solution lies in a cessation of passive resistance.

The Daily Herald says the Note proves beyond dispute that the French Government remains where it was. Its policy is one of "no change." M. Poincaré's reasoning at points is obviously unsound and as a whole utterly unconvincing.

RECORD GLIDER FLIGHT.

PARIS, August 22.  
In the tests for motor-assisted gliders at Vauville, Barbot flew for 11 hrs. 10 mins. The distance flown was 212 kilometres. Barbot thus provisionally wins the Dreyfus Cup for the longest circular non-stop flight.

HOW MUCH IS YOUR BABY WORTH?

You will surely reply, "He is worth, to me, more than all the money in the world." Such being the case you will be glad to know of a medicine which will help your baby's teething, enable him to sleep soundly, digest well and develop into a sturdy, healthy child. The name of this already well-known Canadian children's remedy is Baby's Own Tablets. Here is one endorsement out of many received. It comes from an American mother, Mrs. W. M. Stodart of East Brookfield, Vt., U.S.A., who writes: "I have never found anything as good as Baby's Own Tablets for relieving the teething of little children. My baby was sick a dreadful time cutting his teeth but the Tablets quickly made him all right."

Baby's Own Tablets are an absolutely safe remedy for simple fever, indigestion, constipation, teething, diarrhoea, worms, eczema, also to expel worms. From chemists or post free 60 cents the box, from Dr. Williams' Medicine Co., 90 Kingston Road, Shanghai.

"BOOKIES" STRIKE

PROTEST AGAINST HIGH RING CHARGES.

At Newcastle races there was a diversion in the shape of a bookmakers' strike—or rather a boycott—for that is what it amounted to.

It appears that the regular habits of the second ring resent the raising of the admission fee to ten shillings. They lodged a protest a year ago and again last week without gaining any satisfaction. Therefore a meeting was held outside the entrance gates and all members of the northern branch of the Bookmakers' and Backers' Association were requested not to use the enclosure.

Pickets were posted after the manner in vogue during trade disputes. The move was so successful—from the protesters' point of view, of course—that the ring and its attendants were left in splendid isolation throughout the afternoon. There were rumours that unless the charges are reduced the boycott will be extended to Tattersall's, the bookmakers there being strongly in sympathy with their colleagues of the second enclosure. The officials say that the prices having been fixed, no alteration can be made.

Since the outbreak of the war the majority of telegraph offices on racecourses have been closed, much to the inconvenience of the Press and the public.

Visitors to Newmarket for the first of the July meetings will be glad to learn that the authorities have re-installed the telegraphs on the racecourse on pre-war lines.

PICTURE ROMANCE.

MISTAKE RECALLED BY SALE OF FAMOUS MASTERPIECE.

One of the most important masterpieces of portraiture of the Italian Renaissance figures among the 14 pictures was sold at Christie's on July 13 by direction of the trustees of the Duke of Grafton. It represents Ferry Carondelet and his secretary, and was always held to be the work of the great Raphael until the more scientific methods of modern criticism established the authorship of Sebastiano del Piombo.

In addition to this gem, which is likely to provide a safe-room sensation, the Duke of Grafton's pictures include highly important examples of the art of Van Dyck, Rubens, Reynolds, Palma, Lawrence, Lely, Canaletto and Beccafumi.

**HONGKONG TIDES.**  
The tide-table given below has been compiled as the National Almanac Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Tsim Sha Tsui during the year 1927-28.  
The zero of the table corresponds with the zero of the sounding in the Admiralty chart, which has been found to be 4 feet 6 inches below mean sea-level.  
To obtain the depth of water on the tide gauge at the Victoria Naval Yard and 12 feet 4 inches, and on the gauge at Lamont Dock, Aberdeen, add 10 feet 6 inches to the height given in the table.
